

2023 Price List

My Name is Natasha Carter, I am a photographer because I love capturing special moments in time, boosting confidence and watching people grow. I just love photography and always dreamed of doing it and who doesn't want to have their dream become their career! It doesn't matter what or who I am taking pictures of I love all type of photography. I am a mum to two wonderful kids Chester and Piper and my husband Harry couldn't be more supportive of my dream. I love to be outdoors especially woodlands! You will find my personal projects are in woodlands or in the beautiful landscapes of Scotland, both places I find peace and tranquility. This is why I love to do location shoots because if you have a special place you love to be you will be more relaxed and the more relaxed you are the better and more natural the photos come out.

Please have a browse of my portfolios if you like anything fill in the contact form and we can talk some more!

Or check out my socials and you will see my latest projects. I have laid out my pricing as clear as possible so there are no hidden charges or confusion.
